WHAT OUR READERS SAY:

Applauds downtown work

To the editor:

I would like to take this opportunity to extend my thanks and appreciation to those individuals who have been responsible for the upgrades completed during the past few months within the City of Bellevue. I honestly felt this endeavor from the beginning to be a waste of time and energy. I now see that I was wrong in my thinking. I suppose this is typical of people who seldom do anything but are quick to say how it should have been done.

I would like to thank all concerned. I have no idea who all these people are but those involved do know and to them I give a big thank you. I especially want to thank those workers of U.S. Utilities and Erie Blacktop who worked through good weather and bad to get the job done and keep the traffic moving. They have done a great job and I am very grateful to them for their dedication to us to do good work. Also the city administration and employees should be commended for their performance and hard work.

I might add the newsletter is great. Keep up the good work. Bellevue is certainly a fine place to live.
